# Waste & Overflow

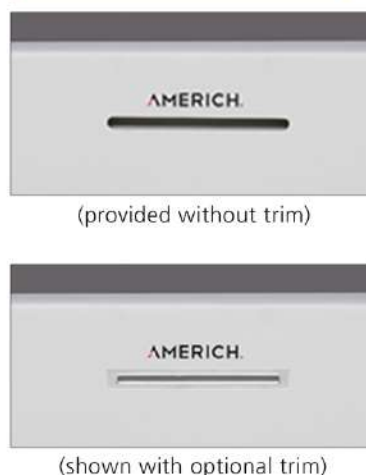

## PVC Waste & Overflow

## Cable Drive Waste & Overflow

## Linear Waste & Overflow

**PVC Waste & Overflow** - Our basic and most affordable drain kit option.

**Cable Drive Waste & Overflow** - We offer an option to upgrade to a cable-drive waste & overflow on most bathtubs in our collections. This specific drain has less moving parts inside the tubing, which reduces the possibility of clogging.

**Linear Overflow** - Is a slotted drain that provides more of a contemporary look and feel.

## Drains (see tub specification sheets to determine availability)
