Mark the position of the screw holes on the wall by measuring the space between the mounting brackets on the back of the mirror cabinet. Vertical position (X) is decided by the use. Use a spirit level to ensure the screws holes are in line.

Step 1

Insert the anchor into the screw hole for reinforcement.

Step 2

Attach the mirror cabinet to the wall by lowering the hole on the back of mirror cabinet onto the screws, then cover with the decoration cap.

Step 3

Use a spirit level to ensure the mirror is level from left to right, adjust if needed. Licensed professional installation is recommended. These instructions are for mounting into studs or other in-wall reinforcement, drywall alone is not sufficient to support wall-hung vanities. Other installation techniques may require a licensed professional.

Step 4

This cabinet is common for left open or right open, depends on the user.
