PEARL 69" CLAW FOOT ACRYLIC TUB

Installation

CAHABA

Caution

You will need at least two people to install this product properly.

In order to reduce the risks of personal injuries, do not support or lift the bathtub by the rim. Provide adequate support under the feet.

The distributor is not responsible for any damage to the unit or personal property caused by improper installation. If you disregard instructional warnings, you will void your warranty and possibly deal with water damage.

- Unpack and inspect the bathtub for damage. Return the bathtub to the carton until you are ready to install.
- Install the bathtub on an adequately supported, level floor.
- Before installation, ensure proper access to the final plumbing connections.

Attention

L'installation de ce produit requiert la participation d'au moins deux personnes.

Afin d'éviter les risques de blessures, ne pas soulever la baignoire par les rebords. Fournissez un support adéquat sous les pieds du bain.

Le distributeur se dégage de toute responsabilité pour tout dommage au bain ou à la propriété résultant d'une installation inadéquate. Si vous ignorez les recommandations, votre garantie sera nulle et vous pourriez subir des dégâts d'eau.

- Déballez la baignoire et examinez-la soigneusement pour déceler tout dommage. Remettez la baignoire dans son emballage de protection en attendant de commencer l'installation.
- Cette baignoire doit avoir le support nécessaire sur un sol mis à niveau.
- Avant l'installation, assurez-vous d'avoir suffisamment d'accès pour toute la plomberie finale.

Atención

Se necesitan al menos dos personas para instalar este producto correctamente.

Riesgo de lesiones personales. No sostenga ni levante la bañera por el borde. Coloque un soporte adecuado debajo de los pies.

El distribuidor no se responsabiliza de ningún daño a la unidad ni a propiedades personales causados por la instalación inadecuada. Si usted ignora las advertencias de instalación, perderá la garantía y podría sufrir daños causados por fuga de agua.

- Desempaque e inspeccione la bañera para detectar cualquier daño. Vuelva a colocar la bañera en el cartón hasta que esté listo para instalarla.
- Instale la bañera sobre un piso con soporte adecuado y nivelado.
- Antes de la instalación, asegúrese de que tenga suficiente acceso a las conexiones finales de plomería.

PEARL 69" CLAW FOOT ACRYLIC TUB

Installation

Measures: inch [millimeter]
 Mesures: pouce [millimètre]
 Medidas: pulgadas [milímetros]

1. Remove the bathtub from its carton and place it on a throw rug or other protective floor covering material to prevent damage to the bath or floor.
2. Position a clean drop cloth or similar material in the bottom of the bathtub. Be careful not to scratch the surface of the bathtub.
3. Level the bath by turning the leveling feet at the bottom of the tub.
(You will need two people to manage this task)
4. Connect the trap to the drain.
5. Connect faucet.
6. Open the hot and cold water supplies and check all connections for leaks.
7. Fill the bathtub to the overflow and check for leaks.

1. Retirez la baignoire de son emballage et placez-la sur une protection pour éviter d'endommager le sol ou la baignoire.
2. Placez un linge ou une matière similaire à la base de la baignoire. Travaillez soigneusement pour ne pas égratigner la surface du produit.
3. Mettez la baignoire à niveau en ajustant les pieds réglables à la base de la baignoire.
(Cette manœuvre requiert la participation de deux personnes)
4. Connectez la trappe du plancher au drain du bain.
5. Installez le robinet.
6. Laissez couler l'eau dans la baignoire et vérifiez s'il y a des fuites dans les raccords du drain.
7. Remplissez la baignoire jusqu'au trop-plein et vérifiez s'il y a des fuites.

1. Saque la bañera del cartón y colóquela sobre un cubrecama u otro material de protección para evitar daños a la bañera o al piso.
2. Coloque una tela o material similar en el fondo de la bañera. Tenga cuidado para no rayar la superficie de la bañera.
3. Nivele la bañera girando los pies de nivelación que se encuentran debajo de la bañera.
(Se necesitan dos personas para realizar esta tarea).
4. Conecte el sifón al desagüe.
5. Conectar el mezclador.
6. Abra los grifos de agua caliente y agua fría y verifique todas las conexiones para determinar si hay fugas.
7. Llene la bañera hasta el nivel de desborde para determinar si hay fugas.

INSTALLING THE WHITE LEGS / INSTALLATION DES PATTES BLANCHES / INSTALACIÓN DE LAS PATTAS BLANCAS

Exchanging the pre-installed chrome finish legs with the supplied extra pair of white finish legs: Follow steps A to G for each of the 4 legs.

- A. Uninstall the pre-installed leg by unscrewing the nuts.
- B. Screw the 2 leg screws (CC) into the new leg.
- C. In order to yield a tight fit between the leg and the bathtub body, adding washers to control the gap is required. Two sizes of washers are provided. Start by using the 25mm washers (AA) and if you find that they overlap, then use the 20mm washers (BB). 2 to 3 washers might be required on the top screw (CC), whereas 1 to 2 washers might be required on the bottom screw (CC). It is recommended that you start by simply putting back the same amount of washers that were there before you uninstalled the original leg.
- D. Slide the leg into the metal bracket, fitting the screws (CC) into the bracket's hole.

Interchanger les pattes en fini chromé pré-installées pour les pattes en fini blanc fournies en extra: Suivre les étapes A à G pour chacune des 4 pattes.

- A. Désinstallez les pattes pré-installées en dévissant les écrous.
- B. Vissez les 2 vis (CC) dans la nouvelle patte.
- C. Afin que la patte épouse bien la surface du bain, il faut ajouter des rondelles afin de remplir l'espace. Deux grandeurs de rondelles sont fournies. Commencez par utiliser les plus grandes rondelles de 25mm (AA), puis si nécessaire, utilisez les plus petites de 20mm (BB). 2 à 3 peuvent être nécessaires pour la vis (CC) du haut, alors que 1 à 2 le seront pour la vis (CC) du bas. Il est recommandé de simplement remettre la même quantité de rondelles que l'on retrouvait initialement sur la patte préinstallée.
- D. Positionnez la patte sur la barre de support en glissant les 2 vis (CC) dans le trou à cet effet.

Cambiar las patas preinstaladas de acabado cromarizado con el par adicional de patas de acabado blanco, siga los pasos de la A a la G para cada una de las patas:

- A. Desinstale las patas preinstaladas desatornillando las tuercas.
- B. Atornille los 2 tornillos de las patas (CC) en la nueva pata.
- C. Para lograr un buen ajuste entre la pata y el cuerpo de la bañera, es necesario agregar las arandelas para controlar el espacio de separado. Se proporcionan 2 tamaños de arandelas. Empezar utilizando las arandelas de 25mm (AA) y si ve que se superponen, utilice las arandelas de 20mm (BB). Puede que se requieran de 2 o 3 arandelas en el tornillo superior (CC), mientras que en el tornillo inferior se necesitan 1 o 2 arandelas. Se recomienda que simplemente se coloquen de nuevo la misma cantidad de arandelas que estaban allí antes de desinstalar la pata original.
- D. Deslice la pata en el soporte metálico, colocando los tornillos (CC) en el orificio del soporte.

PEARL 69" CLAW FOOT ACRYLIC TUB

Installation

E. Move the leg up and down slightly to find its final resting position, where the gap between the leg and the bathtub body is the smallest possible. Once the position is found, make sure that the washers of the top and bottom screws fill the gap behind the bracket. If more washers are needed, add them now.

F. Very loosely mount one washer (AA or BB) and one nut (DD) on each screw (CC).

G. Start by tightening the BOTTOM screw (CC). Once done, tighten the top screw with medium strength. Note that the legs will not bare the weight of the product, and serve a decorative function only.

E. Positionnez la patte afin qu'elle épouse bien la surface du bain. Une fois la position finale trouvée, s'assurer que l'espace derrière le support en métal est bien rempli par les rondelles. Au besoin, rajouter des rondelles.

F. Insérez de façon lâche une rondelle (AA ou BB) et un écrou (DD) sur chacune des vis (CC).

G. Commencez par serrez l'écrou de la vis (CC) du BAS. Une fois celui-ci bien serré, allez serrer l'écrou de la vis du haut. Notez que ces pattes ne supportent pas le poids du produit, elles n'ont qu'une fonction décorative.

E. Mueva la pata ligeramente arriba y abajo para encontrar la posición final, donde el espacio de separado entre la pata y el cuerpo de la bañera sea lo más pequeño posible. Una vez que se encuentre la posición, asegúrese de que las arandelas de la parte superior y los tornillos inferiores llenen el espacio detrás del soporte. Si llega a necesitar más arandelas, agreguelas.

F. Coloque flojamente una arandela (AA o BB) y una tuerca (DD) en cada tornillo (CC).

G. Comience apretando el tornillo inferior (CC). Sólo entonces apriete con fuerza el tornillo superior. Tenga en cuenta que las patas no resisten el peso del producto y servirán solo como decoración.

Acrylic tubs have a solid surface and the color goes all the way through the acrylic, rather than being painted or sprayed on. Because it's a non-porous surface, acrylic is very easy to clean, but you'll still want to be sure the cleaning agent will not affect the finish of your tub.

RECOMMENDED CLEANERS

For routine cleaning use a non-abrasive soap. Dishwashing detergent such as Joy®, Palmolive®, Ivory®, Dawn®, etc. and a soft sponge or cloth is all you need.

For stains or marks that require something stronger, the following are safe to use: Fantastic®, Tackle®, Top Job®, Formula 409®, ScrubFree®, Calgon Bath®, Windex®, Clorox Bleach®, Spiffits® Bath, Glass Plus®, and Spic & Span Powder®.

MAINTENANCE

Scratches and dulling can be removed with a liquid polisher such as Cramer® Kitchen & Bath Acryl Star or Gel-Gloss®, or a metal polish. If your tub is lightly scratched, you can easily buff it out with polishing compound like buffing out fine scratches on a new car.

Deep scratches or burns can be removed by use of very fine sandpaper (1500 grit) and then finishing with a liquid polish. Always wet the sandpaper with water to avoid scratching the surface and use a circular motion, covering an area wider than the scratch. Follow any buffing with polishing compound on the repaired area to bring back its original shine.

CAUTION

DO NOT clean your acrylic bathtub with paint thinner, Goof Off®, Scrubbing Bubbles®, Acetone, Lacquer Thinner, M. E. K.®, or other chemicals that attack the structural integrity of plastics (including, but not limited to, acetones. Use of these chemicals will destroy the acrylic surface of your bathtub and there is no way to reverse the damage caused by this type of chemical reaction. USE OF THESE CHEMICALS WILL VOID YOUR WARRANTY.

LIMITED 1 YEAR WARRANTY

This product has been manufactured and tested to the highest quality standards by Cahaba. We offer our customers thoughtfully crafted fixtures & accessories, engineered for enduring performance over years of use.

WHO IS COVERED BY THE WARRANTY

This warranty extends to the original purchaser only. This warranty is not transferable, between homes or owners and is only applicable to residential use.

WHAT IS COVERED BY THE WARRANTY

Cahaba warrants this product against defects due to material or craftsmanship error during the 12-month warranty period:

Cahaba will provide replacement parts at no charge, or at its option, replace any product or part of the product that is deemed defective, under normal installation, use, service and maintenance.

If Cahaba is unable to provide a replacement and repair is not practical or cannot be made in timely fashion, Cahaba may elect to refund the purchase price in exchange for the return of the product.

CONDITIONS AND EXCLUSIONS

Like other home fixtures, Cahaba products will require light maintenance to ensure proper function. We provide you with complete knowledge to perform this maintenance and can also recommend resources if you are unable to fulfill this service.

- A. Cahaba will not be responsible for product failures due to lack of maintenance or proper use. Please read your care and maintenance documentation to determine the limits of proper use.
- B. The original sales receipt, order number, and/or proof of purchase must be presented at the time of the warranty claim, without exception, for this warranty to be applied to all Cahaba Classics products.
- C. Cahaba recommends installing all Cahaba products with a licensed, professional plumber. Cahaba will not be held responsible for any damage or product failure due to improper installation, misuse, or failure to use a licensed professional. Please read your care and maintenance documentation to determine the limits of proper use.
- D. Commercial use will automatically void this warranty.

NON-APPLICABILITY OF THIS WARRANTY

By the purchase and use of our products, you agree that Cahaba is not liable for incidental, consequential or special damages associated with the return, replacement, installation or use of your product. This includes freight costs, cartridge replacement, labor, travel time, lost profit, home damages and other contingent liabilities and costs (including, without limitation, costs associated with experts, investigations, analyses, attorneys and other professionals and services).

The Cahaba warranty is a comprehensive and explicit limit of liability and all items outside of it are not addressable by or the responsibility of Cahaba. Certain states have variances regarding implied warranties and in those situations we remain fully compliant. Cahaba makes no implication that products comply with any or all local building or plumbing codes. It is the consumer's responsibility to determine local code compliance. This warranty extends to the original purchaser and first consumer.
