- Max Flow rate for each rain function: 2.5 gpm
- minimum working pressure = 29 Psi
- maximum working pressure = 58 Psi
- Weight: 110 lbs
- IP 65

Technical data:

Plumbing:

- Water softening device recommended
- For the optimum choice of hot water storage device – taking into consideration the amount of water used in the bathroom and the frequency with which RainSky M is used – the specific demand needs to be assessed.
- For choosing the drainage, taking into consideration the output of items in the shower, the specific demand needs to be assessed.
- Supply line (hot/cold): 2 x 3/4"
- Must be installed with diverter (rough included).
- Diverter ensures that the product does not exceed the max. flow rate of 2.5 gpm at any setting. It does not permit the use of two functions simultaneously.
- Diverter trim is sold separately
- Please refer to Planning Guide for proper sizing and installation methods
