AME2430	23.5" X 29" X 4.3"
AME2436	23.5" X 35" X 4.3"
AME3030	29" X 29" X 4.3"
AME3036	29" X 35" X 4.3"
AME4230	41.5" X 29" X 4.3"

## Installation Steps for Wall Mounting

1. Fixing the bar
  - 1.1 Open the product packaging, and check whether the product has any exception or functional damage; if yes, please return it to the dealer.
  - 1.2 After selecting the location of the mirror cabinet, check whether the wall is solid, and measure the distance of the holes (A ) in the aluminum alloy bar with a tape measure and mark it on the wall with a pencil
  - 1.3 Drill holes in the marked position with electric drill and  $\varnothing 8$  drill bit, and use special ceramic drill to check whether the wall surface is ceramic tile.
  - 1.4 Knock the expansion plugs into the holes in the wall with a hammer, and then tighten the screws with a screwdriver to fix the bar, and calibrate the level with a spirit level

## 2. Positioning and Installation of Mirror Cabinet:

- 2.1 Install the mirror cabinet on the hanging strip, see details in Choose right locating place and use pencil to make sign on the wall through the base fixing the hole (a)
- 2.2 Remove the mirror cabinet, drill the fixing hole in the wall in the marked position, and place the expansion plugs
- 2.3 Repeat the operation as shown in and mount the mirror cabinet to the bar,, make sure that the circuit on the wall is not energized and connect the three-core wire reserved on the wall to the three-core wire terminal block on the product and then use the screwdriver to tighten the screws into the holes
- 2.4 In order to turn on the mirror light, please follow below procedure: 1) Push the  sensor on the mirror 2) Let your finger leave the  sensor for 1 second 3) Hold press the  sensor. Then the light will turn from 100% to 10%, after that you can repeat 2nd and 3rd procedure, the light will turn from 10% to 100%.

## Mirror Door Adjustment

- 1.1 Fix the mirror cabinet, and check if the mirror door is flat; if not (as shown in , and adjust the distance of the door opening by adjusting the hinge screw (b) and keep the door level

- 2 If the cabinet door isn't flat, please adjust the distance between the door and the cabinet by adjusting the screw (c) to make the door flat.

⚠ Warning: The distance between the door and the cabinet should not be too small, otherwise the door can't be opened and may lead to the door rupture.

**ROTATE CW:**

Distance between door and cabinet reduces.

**ROTATE CCW:**

Distance between door and cabinet increases.

4. Loosen the snap screw (d) of the shelf to adjust the shelf position

Safety Warning

- Do not disassemble the door unless necessary

Please take your phone in the cabinet's wireless charger "b" to battery charging
