WHAT IS S.R.T.?

S.R.T. stands for **SHATTER RETENTION TECHNOLOGY**. It is a transparent film bonded directly onto the glass panel by means of an adhesive to improve safety by retaining the pieces together in the event of glass breakage.

WHAT ARE THE BENEFITS OF S.R.T.?

S.R.T. film provides an added layer of security for you and your family. In the event of an accident, S.R.T. prevents the tempered glass door from shattering into thousands of pieces which could cause damage.

HOW IS S.R.T. APPLIED?

Application is performed by a specialized machine. Application by hand is very difficult as it creates many air bubbles.

The film is always installed on the exterior side of the panels as to not affect the Microtek® coating on the interior.

The film is not meant to be removed and removal should not be attempted.

HOW DURABLE IS S.R.T.?

S.R.T. is very durable. It has been tested for long-term usage against chemicals and abrasives and meets the required standards.

HOW DO I CLEAN GLASS TREATED WITH S.R.T.?

There is no special requirement for cleaning an S.R.T. treated shower door. Cleaning with a damp cloth using a mixture of vinegar/mild soap with water is recommended.

MODEL ESTC34-11-40

SIENA SOLO CURVED WALK-IN SHOWER PANEL

Pivot curved shower panel

- Curved glass panel
- 90° outward and 80° inward opening
- Reversible left or right side installation
- 1/4" (6mm) clear tempered glass
- Shower panel height: 75"
- Chrome & Brushed Nickel finishes

**Microtek®**
FLEURCO

Glass surface protection

10

year limited warranty

Microtek® Glass Protector

YOUR GLASS PROTECTED WITH MICROTEK®

- Resists staining from hard water deposits • Is easier to clean
- Does not support the growth of bacteria
- Eliminates the need for harsh and abrasive cleaning products
- Saves time and effort • Stays cleaner longer
- Creates a more hygienic environment

MAINTENANCE

A soft cloth is all you need to clean your protected glass. For best results, squeegee dry after each use. The only solution Fleurco recommends using is 1 part vinegar and 4 parts water.

 MICROTEK GLASS CLEANING						
Type of Cleaning	Step 1	Step 2	Step 3	Step 4	Step 5	Recommended Frequency
After Use	Spray down glass with hot water. 	Dry with squeegee. 	N/A	N/A	N/A	Immediately after showering.
Regular Maintenance	Water down the panels then clean with mild, non-abrasive soap on a soft sponge. 	Rinse off with clean water. 	Spray with a solution of 1 part vinegar + 4 parts water. 	Rinse off with clean water. 	Dry with squeegee. 	Weekly.

MICROTEK IS EXPECTED TO PERFORM FOR UP TO

10 YEARS

PRECAUTIONS

- Avoid using abrasive cleaners.
- Hydrofluoric and phosphoric acid can damage glass surface and should not be used.
- Do not use abrasive scouring powders or pads, highly acidic/alkaline cleaners, brushers, razor blades or other sharp objects which may scratch or harm the glass surface.

WARRANTY

Provided the glass is maintained according to published after-care instructions and without the use of abrasive cleaning methods or highly alkaline products, FLEURCO warrants that Microtek will work for up to ten (10) years from the date of application.

YOUR GLASS PROTECTED WITH MICROTEK®

- Resists staining from hard water deposits • Is easier to clean
- Does not support the growth of bacteria
- Eliminates the need for harsh and abrasive cleaning products
- Saves time and effort • Stays cleaner longer
- Creates a more hygienic environment

MAINTENANCE

A soft cloth is all you need to clean your protected glass. For best results, squeegee dry after each use. The only solution Fleurco recommends using is 1 part vinegar and 4 parts water.

<div>MICROTEK GLASS CLEANING</div>						
Type of Cleaning	Step 1	Step 2	Step 3	Step 4	Step 5	Recommended Frequency
After Use	Spray down glass with hot water. 	Dry with squeegee. 	N/A	N/A	N/A	Immediately after showering.
Regular Maintenance	Water down the panels then clean with mild, non-abrasive soap on a soft sponge. 	Rinse off with clean water. 	Spray with a solution of 1 part vinegar + 4 parts water. 	Rinse off with clean water. 	Dry with squeegee. 	Weekly.

MICROTEK IS EXPECTED TO PERFORM FOR UP TO
10 YEARS

PRECAUTIONS

- Avoid using abrasive cleaners.
- Hydrofluoric and phosphoric acid can damage glass surface and should not be used.
- Do not use abrasive scouring powders or pads, highly acidic/alkaline cleaners, brushers, razor blades or other sharp objects which may scratch or harm the glass surface.

WARRANTY

Provided the glass is maintained according to published after-care instructions and without the use of abrasive cleaning methods or highly alkaline products, FLEURCO warrants that Microtek will work for up to ten (10) years from the date of application.

WHAT IS S.R.T.?

S.R.T. stands for **SHATTER RETENTION TECHNOLOGY**. It is a transparent film bonded directly onto the glass panel by means of an adhesive to improve safety by retaining the pieces together in the event of glass breakage.

WHAT ARE THE BENEFITS OF S.R.T.?

S.R.T. film provides an added layer of security for you and your family. In the event of an accident, S.R.T. prevents the tempered glass door from shattering into thousands of pieces which could cause damage.

HOW IS S.R.T. APPLIED?

Application is performed by a specialized machine. Application by hand is very difficult as it creates many air bubbles.

The film is always installed on the exterior side of the panels as to not affect the Microtek® coating on the interior.

The film is not meant to be removed and removal should not be attempted.

HOW DURABLE IS S.R.T.?

S.R.T. is very durable. It has been tested for long-term usage against chemicals and abrasives and meets the required standards.

HOW DO I CLEAN GLASS TREATED WITH S.R.T.?

There is no special requirement for cleaning an S.R.T. treated shower door. Cleaning with a damp cloth using a mixture of vinegar/mild soap with water is recommended.
