

FSACT1: Fuego Premium Charcoal Tray

For use with Fuego Premium Grills

FSACT1 includes the following components:

- 1 - All 304 SS Charcoal Tray
- 1 - All 304 SS Charcoal Tray Screen
- 1 - Charcoal Poker

Installation Instructions:

1. Remove one of the large cooking grates. We recommend using the left or right side. The charcoal tray can also be installed in the middle position but you will need to remove all grates for this installation.

2. Remove the diffuser panel in the location that you would like to install the charcoal tray.

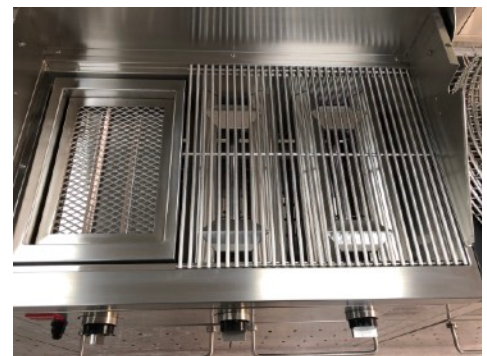

3. You will be left with the burner showing and open pin holes to install the charcoal tray.

4. Unpack all items from the packaging. You should have three items in total.

5. Install the large charcoal tray onto the existing diffuser panel pins located above the open burner.

6. Set the charcoal tray screen in place on top of the charcoal tray.

FSACT1: Fuego Premium Charcoal Tray

7. Add charcoal or other fuel to the charcoal tray combustion area. This will vary depending on fuel type and style of cooking.

8. Re-install the cooking grate over the freshly added fuel.

9. Light the burner that is directly below the charcoal tray to ignite the fuel source. Let burn on high for 5-15 minutes depending on fuel type used.

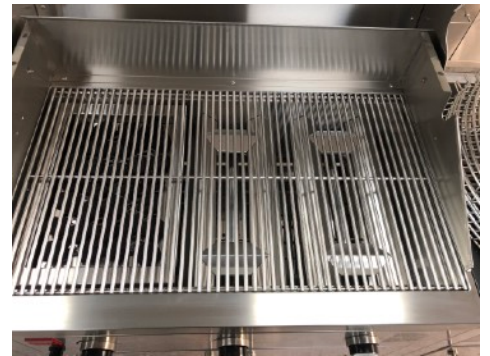

10. Use the charcoal poker tool to move the charcoal lumps around underneath the grate as needed for ignition or grouping together.

11. You can also use the charcoal poker tool to lift the grate up in the front to add more fuel if needed during your cooking cycle*.

Please note that this will be very HOT!!! Please be careful to not burn yourself.

12. Please contact our support team at info@fuegoliving.com or 888.883.8346 if you have any questions.
