Concealed stop/volume control valve

3.1

ENGLISH

The water flow is opened using the lever or the cross handle. It is opened fully by turning the lever (cross handle) in counterclockwise direction.

ESPAÑOL

Para abrir la salida de ajuste de temperatura sirve la palanca o la llave cruzados. Obtenemos la apertura completa girando la palanca (la llave cruzados) en la dirección opuesta al movimiento del reloj.

ENGLISH

Receiver selection is made by turning the lever (handwheel) in the desired direction – to the markings on the escutcheon. Moving the lever (handwheel) to the position presented in Fig. 3.2, 3.3 will cut off the water flow valve "closed".

ESPAÑOL

La selección del tipo de receptor se debe hacer girando la palanca (el volante) en las posiciones escogidas, marcadas en la roseta. Girar la palanca (el volante) a la posición conforme con la fig. 3.2, 3.3 cierra la salida del agua – la válvula en la posición "cerrada".
