

### NATURAL MATERIALS

Experience the epitome of luxury with our individually hand-made collections. Utilizing natural materials, each piece possesses its own unique texture, color, and pattern. Incorporating reclaimed timbers, weathered materials, and repurposed off-cuts, our designs exude sophistication.

The natural splitting, cracking, and loss of oils are not flaws but rather enhance the allure of our products. We celebrate the inherent beauty found in timber's natural characteristics.

Please note that colors may vary due to monitor differences. Embrace the exquisite variations that add to the allure of our creations beyond what pictures can capture.

### URECEL QUICKDRY FOAM & SUNBRELLA

When it comes to outdoor furniture, comfort and durability are essential factors to consider. Urecel QuickDry Foam and Sunbrella Fabric are two remarkable materials that have revolutionized the outdoor furniture industry. Combining the benefits of advanced foam technology and high-performance fabric, they offer a superior outdoor experience, ensuring long-lasting comfort and resistance against the elements.

Urecel QuickDry Foam is a cutting-edge foam material specifically designed for outdoor applications. Its innovative open-cell structure allows water to drain rapidly through the foam, eliminating the common problem of water accumulation and promoting quick drying. This ensures that your outdoor furniture stays dry and ready to use, even after heavy rain or poolside splashes.

#### Benefits of Urecel QuickDry Foam:

- 1. Rapid Drying:** The primary advantage of Urecel QuickDry Foam is its exceptional moisture-wicking properties. By facilitating quick drainage and evaporation, it prevents the formation of mildew, mold, and unpleasant odors, ensuring a clean and fresh seating experience.
- 2. Enhanced Comfort:** Urecel QuickDry Foam provides superb comfort and support. It is engineered to maintain its shape and elasticity over time, ensuring a consistently enjoyable seating experience for you and your guests.

3. **Durability:** This foam is manufactured using advanced technologies that make it highly resistant to outdoor conditions, including exposure to UV rays, chlorine, saltwater, and temperature fluctuations. It retains its structural integrity and does not degrade or break down easily, ensuring long-term durability.

Sunbrella is a renowned brand of high-performance outdoor fabric. It is made from solution-dyed acrylic fibers that are woven tightly to create a durable and fade-resistant material. Sunbrella fabrics are specifically designed to withstand the harsh outdoor environment, making them ideal for outdoor furniture upholstery.

#### Benefits of Sunbrella Fabric:

1. **Fade Resistance:** Sunbrella fabrics are specially treated to resist fading, even when exposed to prolonged sunlight. This ensures that your outdoor furniture retains its vibrant colors and remains visually appealing for years to come.
2. **Water Repellency:** Sunbrella fabrics are coated with a durable water-repellent finish, making them resistant to water and other liquids. This feature helps prevent the growth of mold and mildew while allowing for easy cleaning and maintenance.
3. **Stain Resistance:** Sunbrella fabrics are also highly resistant to stains, making them suitable for outdoor settings where spills and accidents are common. The fabric is easy to clean, allowing you to enjoy worry-free outdoor activities.
