flame presentation

Amantii's exclusive flame presentation allows users to change the flame color from traditional yellow or orange with just a click of the remote.

Surround Back Lighting
The WM-FML-STL Series models come with LED back-lit surround lighting. The back-lighting feature presents only one color at a time, image shown with examples of back-light colors. Choose from a rainbow of different colors to cast a decorative glow in your space. Surround back-lighting is located on the back side of the surround.

Touch Pad

Turn the power on, adjust the temperature and even set a timer with the touch pad conveniently located on the front of the fireplace. The temperature is also displayed so you know exactly how toasty to keep your space. Touch pad illuminates only when in use and automatically fades to off.

Venting
Heat is emitted from the subtle mesh venting located just below the glass viewing area.

INCLUDED ACCESSORIES

The WM-FML-88-9623-STL comes standard with Clear decorative media and a multi-function remote control that adjusts heat, surround back-lighting, flame color and intensity.
