WARNING!

If you do not understand these directions, or if you have any doubts about the safety of the installation, please call a qualified technician. Check carefully to make sure there are no missing or defective parts. Improper installation may cause damage or serious injury. Do not use this product for any purpose that is not explicitly specified in this manual. Do not exceed weight capacity. We cannot be liable for damage or injury caused by improper mounting, incorrect assembly or inappropriate use.

WARNING: CHOKING HAZARD

SMALL PARTS - NOT FOR CHILDREN UNDER 3 YEARS. ADULT SUPERVISION IS REQUIRED.

PACKAGE CONTENTS

TOOLS NEEDED

NOTE: SOME HARDWARE INCLUDED MAY NOT BE USED

Drill

Phillips
Screwdriver

Studfinder

Level

Pencil

Socket
Wrench

CAUTION!

DO NOT INSTALL INTO DRYWALL ALONE. VERIFY YOUR WALL CONSTRUCTION. USE WOOD STUDS TO MOUNT. We include mounting for brick and concrete walls. If unsure, please contact us at vivo-us.com, email at help@vivo-us.com, or call us at 309-278-5303.

DO NOT EXCEED WEIGHT CAPACITY.

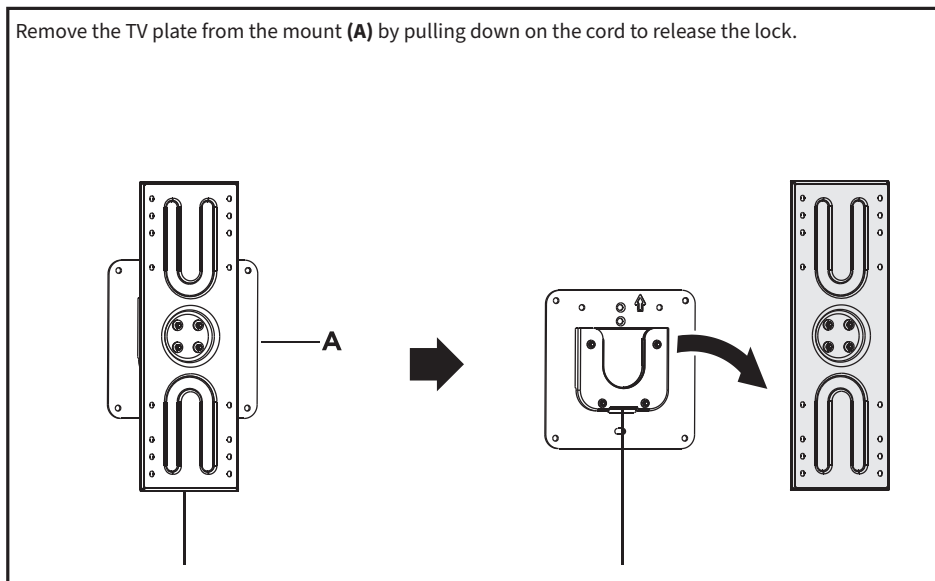

Failure to do so may result in serious injury.

ASSEMBLY STEPS

STEP 1

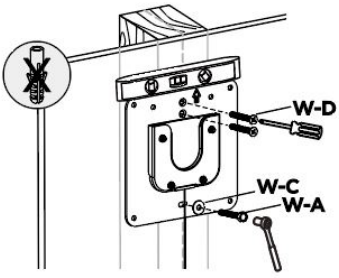

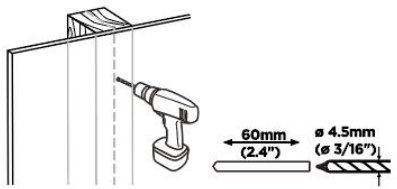

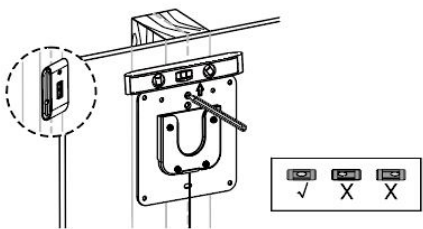

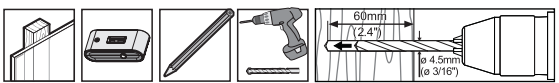

Remove the TV plate from the mount (A) by pulling down on the cord to release the lock.

STEP 2

OPTION A: WOOD STUD WALL

Using the center holes on the mount, mark drilling locations. Use of a stud finder is highly recommended. Drill 2.4" (60mm) deep holes using a 3/16" (4.5mm) drill bit, and secure the mount to the wall using flat head screws (W-D) in upper two holes, and hex head screw (W-A) with washer (W-C) in the lower hole.

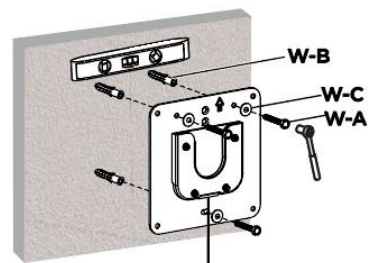

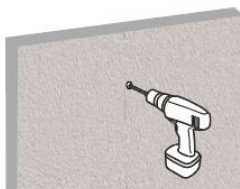

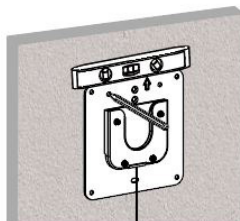

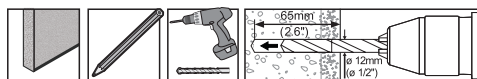

STEP 2 (Continued)

OPTION B: CONCRETE/BRICK WALL

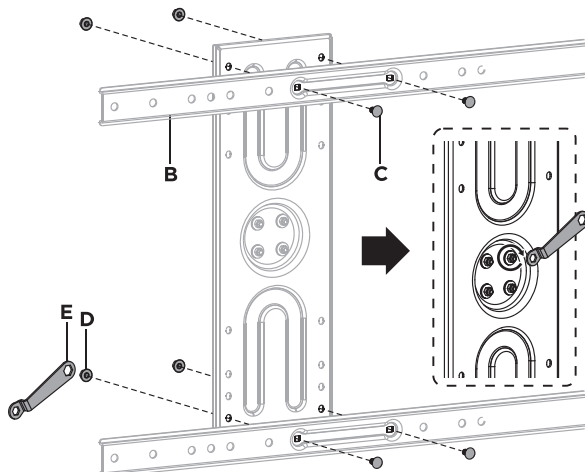

Using the upper side holes and lower center hole on the mount, mark drilling locations. Drill 2.6" (65mm) deep holes using a 1/2" (12mm) drill bit, press anchors (W-B) into holes, and secure the mount to the wall using hex head screws (W-A) and washers (W-C).

NOTE: Anchors are made for use with concrete or brick, and will not work with drywall.

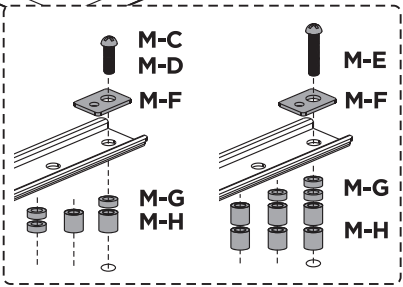

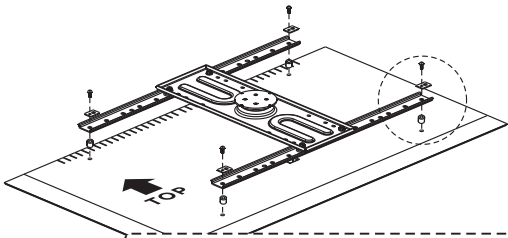

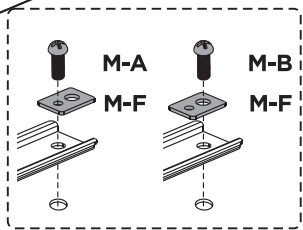

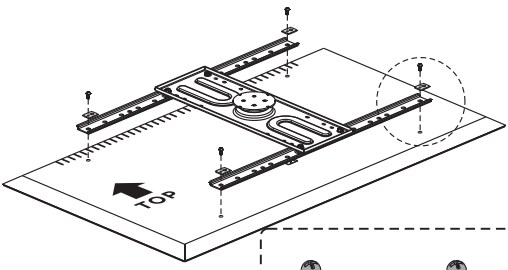

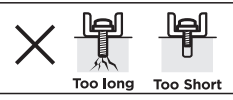

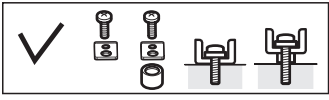

STEP 3

Attach VESA brackets (B) to TV plate using carriage bolts (C) with nuts (D), and tighten with the wrench (E).

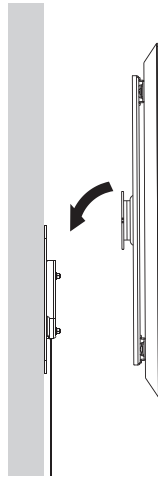

STEP 4

With TV face down on a flat surface, secure assembled VESA brackets to the TV using bolts (**M-A, M-B, M-C, M-D, M-E**) and washers (**M-F**). Use spacers (**M-G, M-H**) between the TV and brackets if needed.

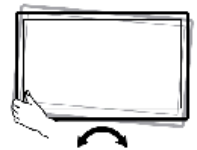

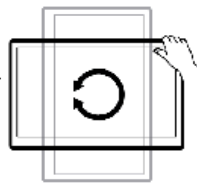

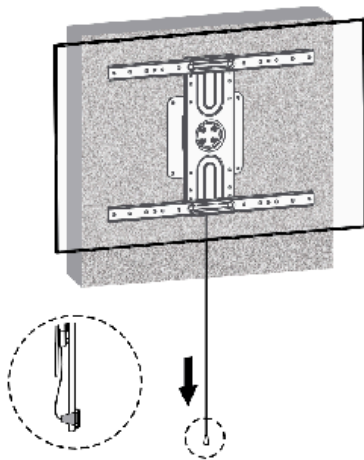

STEP 5

Carefully place the TV plate with brackets and TV into the opening on top of the mount until the latch has engaged. The cord may be hidden by attaching to any part of the steel mount.

STEP 6

Freely rotate the TV to the desired position and adjust the tilt as desired. To remove the TV, pull down on the cord to release the latch, then lift the TV off from the mount.

NOTE: To ensure safety at all times it is recommended that the mount be firmly attached to the mounting plate and wall. Also, ask another person for assistance whenever repositioning from Landscape to Portrait positions.

Open **Monday - Friday 7:00am - 7:00pm** CST,
our dedicated support team can offer immediate assistance with rapid response times. If any parts are received damaged or defective, please contact us. We are happy to replace parts to ensure you have a fully functioning product.
